

## New AGD State Transcript Gains Acceptance

AGD Members now have exclusive access to two versions of their continuing education (CE) transcripts online at [www.AGD.org](http://www.AGD.org).

The New Jersey State Board of Dentistry has agreed to accept the new **AGD State Board Transcript** as verifiable proof of CE credits for re-licensure. The new AGD State Board Transcript provides members with customized reports with the information your state or province requires for re-licensure, including mandatory subjects, and total continuing education credits in a variety of modalities (participation, lecture, self-instruction, etc.) permitted by your state or province.

Members continue to have access to the **AGD State Board Transcript** to help them chart their progress to Fellowship and Mastership.

To access your transcript, members must first log-in with their username and password. Then follow the link for transcripts. If you are currently logged-in follow this link to the transcript page – [here](#).

When accessing the new AGD State Board Transcript for the first time members will need to enter their NJ license number and the registration period which is currently 08/26/2005–10/31/2007 in New Jersey.
