Advance into Mastership with the NJ Academy of General Dentistry

AIM 26 – PART ONE
Sleep Apnea – Marc Benton, MD

Friday, Oct. 23, 2015, 8:30 AM to 4:30 PM
Morris County Golf Club, 36 Punchbowl Road, Morristown, NJ
* Some of the session will be held at the SleepWell Center of NJ, in Madison

The intent of this program is to provide a comprehensive review of dental sleep medicine from the sleep provider perspective, with the ultimate goal of facilitating the development of mutually beneficial collaborative relationships between medical and dental sleep providers. Specifics will include:

- Understanding obstructive sleep apnea (OSA)
- Screening for and identifying OSA
- Becoming familiar with sleep lab-based and home sleep testing
- Update on dental and non-dental treatment options for managing OSA
- Decision-making regarding the selection of various OSA treatment options
- Assessing and optimizing treatment outcomes
- Enhancing the patient experience
- Defining and understanding the roles and relationships between medical and dental sleep practitioners that lead to successful programs
- Managing insurance reimbursement and other administrative aspects of dental sleep medicine
- Selected case studies
- Extensive interactive and Q&A opportunities

Marc L. Benton, MD, FCCP, FAASM, is the Medical Director, SleepWell Sleep Lab in Madison, NJ. Dr. Benton is a graduate of Mt. Sinai School of Medicine, where he also completed his residency. He is board certified in internal medicine, pulmonary disease, critical care medicine and sleep medicine. He has been in private practice since 1988, and is a full attending at Morristown Medical Center, St. Barnabas Medical Center. Dr. Benton is a clinical assistant professor in the department of medicine at Mt. Sinai School of Medicine.

Vicky Seelall, MD, FCCP, is board-certified in sleep medicine.

Kerry Kelly, RN, is director of sleep services, SleepWell Centers of NJ.

Neil Friedman, RN, is the former director of sleep services, SleepWell Centers of NJ.

The New Jersey Constituent of the AGD is an approved PACE provider. The sponsor’s formal CDE programs are accepted by the AGD for Fellowship, Mastership and maintenance credits. Approval does not imply acceptance by the state board of dentistry. The current term of approval extends from 8/1/13 to 7/31/17. AGD ID #219316.

APRIL 15, 16, 17, 2016
LOCATION TO BE DETERMINED
AIM 26 – PART TWO
Hands-On Perio Surgery for the Modern Dentist - Dr. Kent Spillman

Saturday Oct. 24, 8:30 AM to 4:30 PM and Sunday, Oct. 25, 8:30 AM to 2:00 PM
Morris County Golf Club, 36 Punchbowl Road, Morristown, NJ

DESCRIPTION: General practitioners are enthusiastic about learning, diagnosing, and treating their patients with mild to moderate periodontal disease. Attending this class will give you the knowledge and skills to recognize and address periodontal problems, and to offer your patients a predictable and informed solution.

Led by an experienced periodontist, this training demystifies periodontal disease. It also enables the general practitioner to identify the issue and to make educated decisions about whether to treat certain patients or refer them to a specialist. Expect plenty of hands-on activity, including practicing procedures on pig jaws and anatomical models. Workshop participants will gain confidence and a better understanding of the skill set necessary to achieve a reliable outcome. During the two-day workshop you will be instructed on all of the following: instruments, periodontal plastic surgery, oral medicines, soft and hard tissue augmentation, root planing, antibiotics, and laser therapy.

Upon completion of this intensive Perio Surgery Training, you will have new insight into this innovative therapy and the requisite skills to begin integrating it into your practice.

Day One – Saturday, October 24
1. Introduction & Goals
2. Oral Medicine
   - Consequences of various health issues & medications
3. Periodontal Microbiology
   - Root planning and antibiotics
4. Anatomy Review
5. Periodontal Plastic Surgery
   - Incision and flap designs
   - Connective Tissue Graft
   - Hard and Soft Tissue Augmentation
6. Apically Repositioned Flap
7. Suture Techniques
8. Post Surgical Management

Day Two – Sunday, October 25
1. Principles of Osseous Recontouring
2. Bone Grafting: Vertical Defects, Pockets and Furcations
3. Occlusal Adjustments
4. Bone Graft Materials
5. Membranes
6. Laser Therapy In Periodontology
7. Selecting Cases
8. Post Surgical Management

Speaker: Dr. Kent Spillman graduated from Creighton University Dental School. He obtained his certificate in Periodontics from the University of Iowa. He also holds a fellowship in implantology from the University of Texas. Dr. Spillman has been a practicing Periodontist since 1981. He has taught numerous classes in periodontal plastic surgery and periodontal microbiology and has lectured extensively on laser therapy in periodontology. He is a member of the American Dental Association and the American Academy of Periodontology.
